Leeds, UK (available for hybrid/remote jobs)

PERSONAL PROFILE

Front-End Developer transitioning from a career in Dentistry, bringing a unique perspective shaped by clinical precision and a commitment to user-centric design. Having recently graduated from EDIT., I specialize in building accessible, responsive interfaces using React, TypeScript, and modern JavaScript frameworks. My clinical background has instilled a strong sense of empathy and meticulous attention to detail, which I use to advocate for the end-user while delivering technically sound, clean code in collaborative environments.

SKILLS

Languages & Frameworks: HTML, CSS, JavaScript (ES6+), React
Tools: Git/GitHub, VS Code, Figma
UI/UX Principles: Accessibility, responsive design, usability, aesthetics

SOFT SKILLS

- Critical thinking and problem solving
- Attention to detail
- Clear and collaborative communication
- Teamwork
- Empathy and emotional intelligence
- Creativity and improvisation
- Organisation and planning
